

# Futurity Precise®

A FREE CHOICE MINERAL/VITAMIN BLOCK FOR HORSES

# HOOF & HEALTH BLOCK

Including Biotin &  
Methionine **PLUS**  
Organic Trace  
Minerals By:

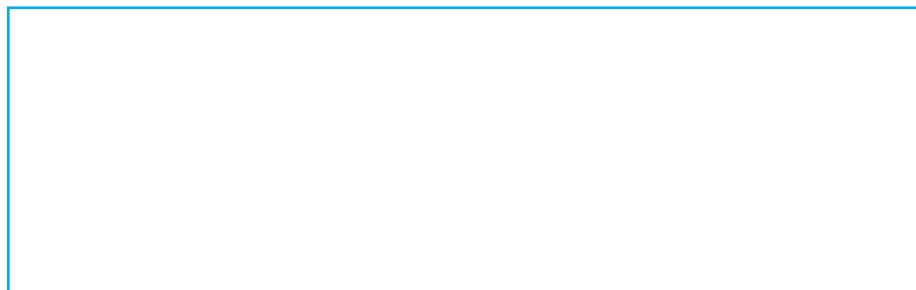

The Leader in Trace Mineral Nutrition

## GUARANTEED ANALYSIS

Calcium (Min)	11.00%
Calcium (Max)	13.00%
Phosphorus (Min)	8.00%
DL-Methionine (Min)	1.80%
Salt (Min)	12.00%
Salt (Max)	14.00%
Cobalt (Min)	40 ppm
Copper (Min)	1,200 ppm
Iodine (Min)	18 ppm

Manganese (Min)	3,000 ppm
Selenium (Min)	18 ppm
Zinc (Min)	4,000 ppm
Biotin (Min)	54 mg/lb.
Riboflavin (Min)	54 mg/lb.
Thiamin (Min)	80 mg/lb.
Vitamin A (Min)	80,000 IU/lb.
Vitamin D-3 (Min)	22,000 IU/lb.
Vitamin E (Min)	1,475 IU/lb.

NET WEIGHT  
25 LBS. (11.34 KG)

## INGREDIENTS

Monocalcium Phosphate, Dicalcium Phosphate, Salt, Calcium Carbonate, Cane Molasses, Soybean Hulls, Methionine Supplement, Zinc Sulfate, Manganese Sulfate, Copper Sulfate, Mineral Oil, Sodium Selenite, Thiamin Supplement, Riboflavin Supplement, Ethylenediamine Dihydriodide, Magnesium Oxide, Zinc Amino Acid Complex, Copper Amino Acid Complex, Manganese Amino Acid Complex, Cobalt Glucoheptonate, Lignin Sulfonate, Biotin Supplement, Petrolatum, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement, Zinc Methionine Complex, Copper Lysine Complex, Manganese Methionine Complex and Apple Flavoring.

**FUTURITY PRECISE HOOF & HEALTH BLOCK** is a mineral and vitamin supplement that is scientifically formulated especially for the needs of horses. All Futurity Precise products are fortified with organic trace minerals, plus biotin and methionine. Trace minerals, biotin and methionine are important nutrients in a balanced diet and may contribute to hoof integrity, animal health and forage digestibility.

**IMPORTANT:** During the first week of use, place the blocks about 50 ft. from water and loafing areas. As horses become acclimated to the presence of the blocks, some repositioning may become necessary to achieve proper consumption. If increased consumption persists for more than two weeks and repositioning of the blocks does not correct the situation, remove the blocks and evaluate overall feeding program.

## FEEDING AND MANAGEMENT

1. Feed at the rate of 5 to 10 horses per block. Start with 1 block per 5 head of horses and adjust this number to achieve desired intake. A minimum of 2 blocks may be necessary to ensure proper accessibility for small groups.
2. Place blocks where animals congregate. Locate blocks throughout pasture, placing them near water and loafing areas. Maintain adequate distance between blocks (10 ft. minimum).
3. Horses should consume approximately 3 to 6 oz. per head daily based on a 1,000 pound animal.
4. Do not allow animals to run out of blocks. When a block is half-consumed, place a new block near it. Place small pieces in troughs or feed pans.
5. Feed as the only FREE CHOICE source of salt, minerals and vitamins.
6. Provide clean, fresh water to all animals at all times.

**CAUTION:** Follow label directions. Consumption of selenium should not exceed 3 mg daily. Six (6) ounces of this product will supply 3 mg selenium. Contains added copper. DO NOT FEED TO SHEEP.

For additional information, please contact your feed supplier or call 1-888-4HORSE4 (1-888-446-7734).
