A FREE CHOICE PROTEIN/MINERAL/VITAMIN
SUPPLEMENT FOR HORSES

GUARANTEED ANALYSIS

Crude Protein (Min)	16.00%	Iodine (Min)	3.5 ppm
Crude Fat (Min)	4.00%	Manganese (Min)	550 ppm
Crude Fiber (Max)	2.50%	Selenium (Min)	3.3 ppm
Calcium (Min)	2.50%	Zinc (Min)	750 ppm
Calcium (Max)	3.00%	Biotin (Min)	10 mg/lb.
Phosphorus (Min)	1.50%	Riboflavin (Min)	10 mg/lb.
DL-Methionine (Min)	0.35%	Thiamin (Min)	15 mg/lb.
Salt (Min)	2.50%	Vitamin A (Min)	15,000 IU/lb.
Salt (Max)	3.50%	Vitamin D-3 (Min)	4,125 IU/lb.
Cobalt (Min)	7 ppm	Vitamin E (Min)	250 IU/lb.
Copper (Min)	225 ppm		

INGREDIENTS

Cane Molasses, Soybean Meal, Defluorinated Phosphate, Magnesium Oxide, Vegetable Oil, Salt, Calcium Carbonate, Methionine Supplement, Zinc Sulfate, Manganese Sulfate, Copper Sulfate, Mineral Oil, Sodium Selenite, Thiamin Supplement, Riboflavin Supplement, Ethylenediamine Dihydrochloride, Zinc Amino Acid Complex, Copper Amino Acid Complex, Manganese Amino Acid Complex, Cobalt Glucoheptonate, Biotin Supplement, Vitamin A Supplement, Vitamin D-3 Supplement, Vitamin E Supplement, Zinc Methionine Complex, Copper Lysine Complex, Manganese Methionine Complex and Apple Flavoring.

FUTURITY PRECISE HOOF & HEALTH PROTEIN TUB is a protein, mineral and vitamin supplement that is scientifically formulated especially for the needs of horses. All Futurity Precise products are fortified with organic trace minerals, plus biotin and methionine. Trace minerals, biotin and methionine are important nutrients in a balanced diet and may contribute to hoof integrity, animal health and forage digestibility.

IMPORTANT: During the first week of use, place the tubs about 50 ft. from water and loafing areas. As horses become acclimated to the presence of the

tubs, some repositioning may become necessary to achieve proper consumption. If increased consumption persists for more than two weeks and repositioning of the blocks does not correct the situation, remove the tubs and evaluate overall feeding program.

FEEDING AND MANAGEMENT

1. Provide 1 tub per 5-10 head of horses. Start with 1 tub per 5 head of horses and adjust this number to achieve desired intake. A minimum of 2 tubs may be necessary to ensure proper accessibility for small groups.
2. Place tubs where animals congregate. Locate throughout pasture, placing them near water and loafing areas. Maintain adequate distance between tubs (10 ft. minimum).
3. Horses should consume 1 to 2 pounds per head daily based on a 1,000 pound animal.
4. Feed tubs continuously. When a tub is nearly depleted, place a new tub nearby.
5. Feed as the only FREE CHOICE source of protein, salt, minerals and vitamins.
6. Provide clean, fresh water to all animals at all times.

CAUTION: Follow feed directions. Consumption of selenium should not exceed 3 mg daily. Two (2) pounds of this product will supply 3 mg selenium. Contains added copper. **DO NOT FEED TO SHEEP.** For additional information, please contact your feed supplier or call 1-888-4HORSE4 (1-888-446-7734).
